Data Validation Policy

GOVERNOR'S WORKFORCE INNOVATION DIRECTIVE NO. PY2021-07

1. Purpose. This directive transmits the State's policy for conducting Data Validation. These are new guidelines for the verification of data for WIOA and all other federally funded grants.

2. Discussion. The Data Validation Policy is required by USDOL to conduct quality assurance and to verify the accuracy, validity, and the reliability of the data. This data validation ensures that all program data consistently and accurately reflect the performance of each participant. The purpose is to verify that performance data reported by the Department of Commerce is valid, accurate, reliable, and comparable across programs; to identify anomalies in the data and resolve issues that may cause inaccurate reporting; to identify source documentation that is required for data elements; and ultimately, improve program performance accountability.

3. Action. It is the responsibility of the local workforce development areas to review the attached policy. These guidelines will also be posted on the website, www.wioa-alabama.org, under the Governor's Workforce Innovation Directives.

4. Contact. Any questions regarding the Data Validation Policy should be addressed to Kevin Mohajerin, at 334.242.5184 or by email at kevin.mohajerin@commerce.alabama.gov.

WIOA Data Validation Policy

❖ Overview

The Department of Labor has set forth requirements in which States are mandated to ensure all participant data is consistent and accurately reflects the performance of each core performance measure. This guidance is for the purpose of validating WIOA and other grant funded data. Data Validation is the process of ensuring the accuracy of reported data (which corresponds to quarterly/annual performance calculations as well as Eligibility elements) through electronic or physical review of participant records and their supporting documentation.

❖ What is Data Validation?

Data Validation is a routine statistical process used to check for data quality and to improve performance accountability. Validation helps to ensure accuracy, safeguards data integrity, and promotes timely resolution of data inaccuracies.

❖ Applicable Programs

- WIOA Title I Adult
- WIOA Title I Dislocated Worker
- WIOA Title I Youth
- National Dislocated Worker Grants
- Apprenticeship Grants
- Other federally funded grants

❖ Data Validation Procedures

○ How to Prepare:

Data Validation is ***not*** monitoring, but rather a process of finding anomalies within participant records which may affect performance calculations. It is anticipated much of the Data Validation process may now be conducted virtually through Alabama Works!

If for any reason an on-site review is needed, Career Centers will on average receive a three-day “window” or heads-up regarding an upcoming review to retrieve and gather all necessary participant records/documents. State Reporting will notify the selected Career Center as to the participant records* chosen for Validation.

** Any reference made to records/files is applicable to both hardcopy and electronic documents*

○ Validation Process:

Data Validation at a minimum must be conducted at least once a year but can be performed at any point during the program year. State Reporting may conduct additional validation reviews if administrative reports indicate a pattern of low performance or unusual errors, missing data, out-of-range values, and/or anomalies in their data. The State Reporting Section will schedule and coordinate the annual Data

Validation Review (prior to the submission of each Annual Report/Q4 Report) and any additional Validation Reviews as described below.

The State Reporting Section will extract a sample of randomly selected participants records found in Alabama Works! which were used in the most recent Performance calculations from random or target Career Centers within Local Areas/Regions. This will be accomplished by the following methods:

1. **Virtually** - WDD staff will review participant documentation utilizing scanned documents found in Alabama Works!
2. **On-Site** - WDD staff will review participant records and corresponding documentation at selected Career Centers. Staff must ensure requested participant records are available prior to the visit.

❖ Range of Participant Elements in Data Validation

Performance data is based on Exit dates which inherently causes a delay when records will be sampled for Validation review.

➤ Timing of Data Validation

| <u>If Exit Date is between</u> | <u>Record <i>could</i> be in PY</u> | <u>Which is Validated in PY</u> |
|--------------------------------|-------------------------------------|---------------------------------|
| 7/1/19 and 6/30/20 | PY19 | PY20 |
| 7/1/20 and 6/30/21 | PY20 | PY21 |
| 7/1/21 and 6/30/22 | PY21 | PY22 |

Most of the records in the Validation process will be considered as “old” (not within current program year). Example: An ITA record for a 2-year college curriculum is exited 12/18/2019, thus Eligibility data elements would be for records in which services possibly started before 12/18/2017.

❖ Preparing for Validation

Staff members are encouraged to familiarize themselves with the Data Elements and Source Documentation Requirement Guide (see Attachment). Staff members involved with Data Validation will be trained periodically (but at least annually) to stay current with any changes or revisions to the Data Validation procedures.

❖ Sampling Methodology and Process

AlabamaWorks! will randomly select records used in performance calculations. The number of participant records selected will be in direct correlation with the number of participants within each calculation as well as each funding stream. At a minimum at least two Local Areas/Regions must be included in the sample as well as at least 5% of the total number of participants within the given performance denominator across all funding streams.

Note: In those rare cases when participant records have been destroyed (tornado/fire); the affected Center will be removed from the sampling process. In all other cases i.e., (misplaced records, records

altered and/or destroyed by a disgruntled employee, etc.); the Career Center is responsible to restore participant files and documentation.

Most data elements to be Validated will fall into the following categories:

Eligibility Sample - A simple random sample that validates those data elements used in program eligibility.

Performance Sample - Validates those data elements used in the performance calculations with emphasis on final performance as included in the Annual Report.

❖ **Conducting the Data Validation Review**

Data elements to be reviewed are based on elements and corresponding definitions as outlined in the ETA issued DOL-Only Participant Individual Record Layout (PIRL). USDOL has listed required data elements that are to be validated and the type of corresponding source documentation requirements as found in TEGl 23-19 and noted in the attachment to this policy. The following are the only types of allowable Source of Documentation:

1. Cross-Match: Requires validators to find *detailed* supporting evidence in a database.
2. Self-Attestation: Statement stating his/her status on a signed and dated form (participant statement) for a specific data element.
3. Case Notes: Case Manager identifying the status of a data element and the date obtained.
4. Electronic Records: Records created, stored or transferred via an electronic process and maintained in the State's management information system.

Validation worksheets

Will be generated either in paper form or electronically for each corresponding participant. Worksheets will list data elements chosen for validation.

Sample Validation Worksheet:

Pass or Fail: Utilizing the four Source Documentation outlined above, the Data Element is either Passed or Failed based on the supporting file documentation.

- Pass if the source documentation **Matches** the validation worksheet. Fail if data on the worksheet does not match the data in the source documentation or if no source documentation is found.
- Pass if the data on the validation worksheet is **Supported** by data in the source documentation.

❖ Sample of Data Validation Elements with Types of Required Documentation

| Data Element | Required Documentation (1 needed per element)* |
|----------------------------|--|
| • Date of Birth | Driver's license, Birth Certificate |

| • Type of Credential | Copy of Credential, School record |
| • MSG-- Skills Progression | Documentation from Provider, Results of knowledge based exam |

*Only a partial listing; reference the attachment for more information.

❖ Data Identifying and Correcting Errors

Several methods are utilized in ensuring Data is accurate:

- Data Validation Review

Case managers will be given a list of “failed” Data Elements for each corresponding participant. They then will be responsible for correcting the participant record to the correct data value. Corrections should be made prior to the next cycle of Performance reports.

➤ Quarterly Error Identification

Data Elements which make up the DOL quarterly performance file reports generates an ‘Edit Check Error Summary’; data element errors are corrected prior to quarterly submittal. Example:

Edit Check Error Summary

Click the Error Element No. to display the details of the Error Results.

| Element No. | Element Name | Error Description |
|-------------|--|---|
| 1800 | Type of Recognized Credential (WIOA) | B) IF School Status at Program Entry (WIOA) (PIRL409) = 3 OR 5, THEN Type of Recognized Credential (WIOA) (PIRL 1800) must NOT = 1 |
| 1801 | Date Attained Recognized Credential (WIOA) | A) IF Type of Recognized Credential (WIOA) (PIRL 1800) is > 0, THEN Date Attained Recognized Credential (WIOA) (PIRL 1801) must be >= Date of Program Entry (WIOA) (PIRL 900) |
| 1906 | Date of Most Recent Post-Test Score #1 | B) IF Educational Functioning Level Post-Test #1 (PIRL 1908) > 0, THEN Date of Most Recent Post-Test Score #1 (PIRL 1906) must NOT be blank |

➤ Continuous Participant Element Review

Career Center staff perform participant data element review on a continuing basis. Example:

| <u>usylname</u> | <u>usylname</u> | <u>clid</u> | <u>skill Gains</u> | <u>goddateattain</u> |
|-----------------|---------------------------|----------------------|-----------------------|----------------------|
| 1 | North AlabamaWorks! | Local Workforce Area | | 35 |

| | Cullman Career Center | | Diploma or Equivalent | 11/13/2017 |
| | | | | 2 |
| | | | Diploma or Equivalent | 02/08/2018 |
| | Decatur Career Center | | Diploma or Equivalent | 09/15/2017 |
| | | | | 6 |
| | | | Diploma or Equivalent | 12/18/2017 |
| | | | Diploma or Equivalent | 12/15/2017 |
| | | | Diploma or Equivalent | 12/14/2017 |
| | | | Diploma or Equivalent | 03/06/2018 |
| | | | Diploma or Equivalent | 02/13/2018 |
| | | | Diploma or Equivalent | 12/15/2017 |

➤ State Reporting & Technical Assistance

The State Reporting Section is responsible for providing Technical Assistance to areas that are having difficulty with the data validation requirements or that request such assistance from the State, and may include additional reviews, training, or provision of policy.

❖ Electronic Files/Documentation Validation

Career Centers are now able to operate in a ‘paperless’ environment. A paperless office is a work environment in which the use of paper is eliminated or greatly reduced by converting documents into a digital/scanned form. A ‘paper trail’ is still needed when going paperless. The paper trail must still be able to verify the staff producing any scanned document.

- ❖ Auditors/Monitors need to have access to documentation supporting eligibility decisions and to verify the accuracy of the data being collected and reported.

- ❖ Documents collected from participants may be used in legal proceedings, ETA as well as other Federal agencies are bound by the requirements of the Federal Rule of Evidence 1003; which governs the introduction of evidence at civil and criminal trials in United States federal trial courts.

Attachment II: Source Documentation for Core/Non-Core Programs DOL-only Data Element Validation

Source Documentation Validation Instructions:

The data element source documentation table lists the data elements that grantees are either required or encouraged to validate (please refer to Attachment I for program specific guidance). The table displays the PIRL data element numbers, data element names, definitions/instructions, program specific requirement and source documentation needed to perform data element validation on each data element. All grantees reporting performance data in accordance with section 116(d) of WIOA must use the same data element definitions in the PIRL and must adhere to the source documentation requirements as applicable and instructed by their program office.

A. Understanding the Source Documentation Attachment layout/columns

1. Columns for Data Element No., Data Element Name, and Data Element Definitions/Instructions are not to be cited as the latest PIRL data elements. When seeking current PIRL related information, please visit <https://www.doleta.gov/performance/reporting/#current-reporting-req> for current reporting requirements.
2. The column titled Requirements by Program indicates which programs are required to validate any given element. If there is an R^{DEV} (Required for Data Element Validation) in a program's column, then the program is required to validate that element with the appropriate source documentation listed.
3. The WIOA Source Documentation column lists acceptable source documentation by each element. In most cases, the programs will be permitted to choose one of the acceptable source documentation types from the lists.
4. The Program Specific Parameters lists any special conditions or notes a program office may require. Source documentation requirements in this column, if any, will supersede those listed in the WIOA source documentation column as these requirements may limit acceptable source documentation.

B. Types of Source Documentation

For most data elements, the validation guidelines provide multiple forms of acceptable source documentation. If the grantee collects multiple sources for the same data element and the sources conflict, the most objective source should be used to determine if the data element is valid and accurate.

These source documentation types include:

1. Cross-Match: A cross-match requires validators to find detailed supporting evidence for the data element in a database. An indicator or presence of a Social Security Number (SSN) in an administrative non-WIOA database, i.e., a database not maintained by a WIOA core program such as data from the State's Department of Motor Vehicles, is not sufficient evidence for a cross-match. State validators must also confirm supporting information such as dates of participation and services rendered. States must have data sharing agreements in place as appropriate.
2. Self-Attestation: Self-attestation (also referred to as a participant statement) occurs when a participant states his or her status for a particular data element, such as pregnant or parenting youth, and then signs and dates a form acknowledging this status. The key elements for self-attestation are: (a) the participant identifying his or her status for permitted elements, and (b) signing and dating a form attesting to this self-identification. The form and signature can be on paper or in the State management information system, with an electronic signature.
3. Case Notes: Case notes refer to either paper or electronic statements by the case manager that identify, at a minimum, the following: (a) a participant's status for a specific data element, (b) the date on which the information was obtained, and (c) the case manager who obtained the information.
4. Electronic Records: Electronic records are participant records created, stored or transferred in a form that only a computer can process and maintained in the State's management information system. Records can be numeric, graphic, or text. They can also include magnetic storage media such as tapes or disks.
